

TROCAIRE
COLLEGE

The Office of Accessibility Services at Trocaire College is committed to providing full participation of students with disabilities. It is our goal to support student success and work to get reasonable accommodations in place for students who may be eligible. We strive to have a supportive environment to help students achieve their goals.

TROCAIRE COLLEGE ACCESSIBILITY SERVICES

HOW TO GET STARTED

1. Students should contact the Accessibility Services located in the Wellness Center (Rm 118) at the 360 Choate Ave., Buffalo, NY 14220 location.
<https://my.trocaire.edu/student-services/disability-services/>
2. Students must provide documentation from a licensed provider that states your diagnosed disability, how the disability impacts your everyday life and functionality, and the provider's recommendation for you to be successful in college.
3. Students must meet for an initial intake. Information from the student in addition to documentation submitted will determine an individual's eligibility for accommodations.
4. Once a student is found eligible for accommodations, a notification will be sent to the student's instructors and the student must meet with instructors to plan for their accommodations in each of their classes.

ADDITIONAL ON CAMPUS SUPPORTS

Students can contact The Palisano Learning Center for tutoring and Academic Coaching

Online tutoring available in many subject areas

Students can utilize health science lab

Look for workshops being held on various topics such as test taking
